

PARTICIPATE IN THE METAMORPHOSES B2B!

METAMORPHOSES, THE SHOWCASE FOR MATERIALS AND PRODUCTS OF THE FUTURE

When? Tuesday, November 5th, 2019

Where? Marche-en-Famenne, Belgium – in Wallonia at the border with France, Germany and Luxembourg

Do you have an innovative product, or do you want to find new applications for its use? Are you looking for new opportunities, partners or suppliers? Are you highly interested in technology transfer?

The concept:

In Belgium, many companies and research centres are working on the development of new materials or the adaptation of existing materials for new applications. The materials cover all sectors of the economic activity and their adaptation is in constant and fast evolution.

At Métamorphoses, creators, producers and users of innovative materials and products will exhibit their know-how in sectors as varied as textiles, plastics, construction, recycling, digital, chemistry ... This is the opportunity to discover, share and learn about the multiple properties and applications of these "super-materials" with experts: business leaders, researchers, creators, designers, architects...

You are:

- Companies producing innovative materials, or in search of new manufacturing processes ...
- Universities, Research centres, Engineering schools....
- Consultants, Architects, Designers ...

Looking to develop R&D, technological or business collaborations, with companies,

designers, research key players ...?

Working on materials in the fields of :

- sustainable construction,
- energy,
- recycling,
- textiles,
- security / safety,
- ...

The Metamorphoses B2B is for you!

Don't miss this unique opportunity to stand out in front of a quality audience.

- More than 5.000 m2 dedicated to the materials and products of the future
- Numerous national and international exhibitors
- Conferences on cutting-edge themes
- B2B meetings
