## “SUSTAINABLE ENERGY AND SMES: CURRENT AND FUTURE HORIZON 2020 SUPPORT MEASURES”

### *Information and networking morning*

Horizon 2020 “Secure, clean and efficient energy”, with a budget of around €6bn from 2014 to 2020, is the EU’s Research and Innovation funding programme for energy. The Horizon 2020 Energy National Contact Points invite you to attend the “Information and Networking morning” event during EUSEW 2019 to discover the remaining funding opportunities in Horizon 2020 Energy and the new ones in Horizon Europe. The event is addressed to all types of organisations, businesses, research institutes, universities, public authorities and European institutions, in particular those established in countries with minimal experience in Horizon 2020. SMEs are particularly welcome. Attending the event will give participants an opportunity to:

- Learn about the current funding opportunities in Horizon 2020 “Secure, clean and efficient energy” Work Programme, and about the plans for Horizon Europe;
- Hear from and network with successful applicants;
- Meet potential partners; and
- Ask questions and find out where to get support with Horizon 2020 proposals.

Register by the 14<sup>th</sup> of June at: <https://bit.ly/2VNElJK>
